About the Foundation

IITI DRISHTI CPS Foundation is a Technology Translation Research Park hosted at IIT Indore and supported by the Department of Science & Technology, Government of India. It works on Digital Healthcare, Cyber-Physical Systems, system simulation and modelling, and commercialisation of deep-tech innovations. Its flagship platform is CharakDT, a Digital Health and Clinical Decision Support ecosystem. drishticps.org

Roles and responsibilities

Project and programme management

- Build project plans, timelines, milestones and deliverable trackers
- Monitor multiple projects, flag delays and risks, and drive resolution
- Run review meetings and track action points, vendor deliverables and closure reports

Technical and health-tech understanding

- Understand each project's architecture, data flows, AI/digital health components and regulatory needs
- Translate clinical requirements into technical specifications and work packages
- Review prototypes and vendor outputs against requirements

Proposals and grants

- Draft proposals, concept notes, DPRs and presentations
- Prepare and coordinate government, research and philanthropic grant proposals
- Manage post-award reporting and utilisation documentation

Stakeholder bridging and reporting

- Act as the link between doctors, management, government stakeholders, vendors and project teams

- Prepare MIS reports, dashboards and progress summaries

Key skills and competencies

Project and programme management, planning and monitoring

Technical project coordination and digital health understanding

Technical, health-tech and grant proposal drafting

PMO, MIS reporting and dashboarding

Stakeholder management, risk tracking and compliance
