Advertisement for the post of Research Associate and Technician

Online Applications are invited for post of Research Associate and Laboratory Technician to be appointed by Biotechnology Ignition Grant (BIG) funded by Biotechnology Industry Research Assistance Council (BIRAC). Biotechnology Industry Research Assistance Council (BIRAC) a not-for-profit Section 8, Schedule B, Public Sector Enterprise, set up by Department of Biotechnology (DBT), Government of India on sanctioned research project “Low Cost, Rapid, Smart, Mobile Early Cervical cancer diagnostic device”. This BIG – BIRAC project has been sanctioned to Dr Rashmi Chowdhary Associate Professor, Department of Biochemistry AIIMS Bhopal as Principal Investigator and Prof S.K Goel Head, Department of Biochemistry AIIMS Bhopal as coordinator.

Project Description: Cancer is a major cause of morbidity and mortality in India. In contrast to developed countries, cervical cancer is a public health problem in developing countries like India, so much so that India alone accounts for one-quarter of the worldwide burden of cervical cancers and which is victimizing large number of women in our county in their most productive years of their life. Early detection of the cervical cancer is the utmost important currently.

To address this issue we are proposing a very Novel Technology, early diagnosis for cervical cancer at *very low cost, rapid, easy-to use, highly specific and sensitive* using immunodiagnosics tools. We aim to build a low cost device showing rapid results, mobile, automated, Lab on chip cervical cancer diagnostic kit assay equivalent to the gold standard Pap smear test in its sensitivity and specificity for screening and early detection of large population against this deadly disease.
