

*"Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it is the only thing that ever has"- Margaret Mead*

IIM Mumbai was founded in 1963 as a collaborative effort between the Government of India and the International Labour Organisation. It is a premier management institute in India, ranked 6th in the NIRF ranking for 2023. The Institute offers a 2-year MBA program in Sustainability Management. IIM Mumbai is extensively engaged with industry, academia, and international organisations in research related to sustainability. **Exciting opportunity to work in sustainability domain @IIM Mumbai!**

**RESEARCH ASSOCIATE**

**Industry sponsored projects**

<b>DESCRIPTION</b>	The team is engaged in research projects on sustainability, sponsored by corporations, covering topics such as product life cycle assessment, product sustainability index, decarbonization, sector-specific sustainability initiatives, and sustainable supply chains. Climate change is a pressing global challenge that necessitates immediate action across all sectors, including freight, which significantly contributes to carbon emissions. Accurate emissions accounting, standardized guidelines, clear governance, and consistent data collection are essential for transparency and reduction initiatives. IIM Mumbai's partnership with <b>Smart Freight Centre (SFC), Netherlands</b> , a global non-profit focused on reducing freight-related greenhouse gases, aims to develop a comprehensive emission tracking framework to assist governments and industry in implementing effective decarbonization strategies that support a low-carbon future leading to sustainable development.
