IITB Project Recruitment:

Project title: Indian Telecom Security policy

About the project: The candidate will work on project Vajra. Vajra is an advanced Endpoint Detection and Response (EDR) tool specifically designed to assist organizations and enterprises in bolstering their security posture. By providing continuous monitoring and proactive threat detection capabilities, Vajra aims to protect Linux and Windows platforms from a wide array of security threats. These threats may include data extraction, extortion attempts, and activities that could cause significant reputational damage. With Vajra, users can identify, investigate, and remediate security threats efficiently, ensuring the safety and integrity of their networks.

Essential Qualifications & Experience:

BE/BTech/MA/MSc/MCA/MBA or equivalent degree

OR

BA/BSc or equivalent degree with 2 years of relevant experience

The ideal candidate should have good background in web development technologies like ReactJS, NodeJS, HTML, CSS, Bootstrap.
