VACANCY NOTICE

Advertisement for SRF/JRF Positions (Bioinformatics)
Applications are invited for the position of Senior Research Fellow (SRF) / Junior Research Fellow (JRF) in the Vector Borne Disease Group at the International Centre for Genetic Engineering and Biotechnology (ICGEB).

Position
- JRF (Bioinformatics)
- SRF (Bioinformatics)

Research Area
- Bioinformatics / Computational Biology (Related to integrated multi-omics analysis, including genomics, transcriptomics, proteomics, and metabolomics data)
- Statistical Modelling and Machine Learning, Geospatial Analysis (GIS) and Remote Sensing

Eligibility Criteria
- **Essential Qualification:**
  - M.Sc. or M.Tech. in Bioinformatics
  - Candidates with strong computational and biological data analysis skills will be preferred.
- Candidates qualified for NET/GATE or equivalent will be preferred (as per institute norms). **Two year** experience required for SRF position.

Desirable Skills
- Bioinformatics analysis of multi-omics data (genomics, transcriptomics, proteomics, metabolomics)
- Statistical modelling, machine learning, and data integration
- Programming in R/Python, MATLAB and use of bioinformatics pipelines
- GIS, spatial analysis, and remote sensing for disease surveillance
-

Fellowship
- As per **ICGEB/DBT norms** (commensurate with qualification and experience).

Tenure
- Initially for one year, extendable based on performance and project requirements.

How to Apply
Interested candidates should send their **CV**, a brief **statement of research interests**, and **contact details of referees** to: ✉@ *[icgeb.vbd@gmail.com]*
   Last date for application: [13th February 2026].
Only shortlisted candidates will be called for in-person interviews on **19th February 2026**. Requests for online interviews will not be considered.
