No. JNU/SBT/ST/STARS-MHRD/2023-1 Dated: 26 October 2023

Applications are invited for **ONE Senior Research Fellow** in the MHRD funded STARS project titled **"Delineating the molecular basis of Rho GTPase mediated actin degradation and its implication in amoebic encystation"** in the laboratory of the undersigned.

Salary: As per MoE guidelines in this regard and JNU rules

Essential Qualification: Post Graduate Degree in Basic Science OR Graduate/Post Graduate Degree in a Professional Course. Additionally, the candidate should have qualified UGC-NET (including lectureship), **OR** GATE, **OR** National level examinations conducted by MHRD and its Agencies and Institutions such as UGC, IIT/IISc/IISER/IIIT.

The candidate must have two years research experience and should have handled animal cell-culture.

Desirable: Candidates with prior experience in working with Entamoeba will be given a preference. It is desirable that the candidates should have some experience in protein purification, enzyme kinetics and basic molecular and cell biology techniques.

The position is completely temporary and co-terminus with the project (ending on 4th February 2024). JNU reserves the right to relax any of the qualifications in case the candidate is found otherwise well qualified by the Selection Committee.

Interested candidates should mail a **hard copy** of the application to the undersigned. **Applications sent by email will NOT be entertained.** Name, address, contact number and e. mail address of two referees must be enclosed with the application. The last date for the application is **3rd November 2023.** Shortlisted candidates will be invited for an interview. Please note that no TA/DA will be paid for attending the interview.
