

WBL INTERNSHIP · AICTE PORTAL

Work-Based Learning Internship — SAMEER Mumbai

Society for Applied Microwave Electronics Engineering and Research

Last Date to Apply: **26 July 2026**

ABOUT THE INTERNSHIP

WBL candidates will be engaged in research, design, development, testing, integration and maintenance in Electronics, RF & Microwave Systems, Embedded Systems, FPGA/ARM, Control Systems, Atmospheric & Medical Instrumentation, High Voltage & Pulsed Power Systems, Vacuum Technology, Accelerator Physics, Software Development, Data Processing, Scientific Computing, Industrial Safety, and Test & Measurement. Work may involve hardware/software development, simulations, system integration, calibration, field evaluation, scientific data analysis, and laboratory testing.

POST & VACANCIES

WBL Trainees

ELIGIBILITY

B.Tech/B.E. in Electronics, E&TC, RF & Microwave, Mechanical, CSE, IT, Instrumentation, Electrical, or Engineering Physics; OR M.Sc. in Physics, Electronics, Atmospheric Physics, Medical Physics, or Optoelectronics — graduated within last 3 years, including final-year students.

CATEGORY-WISE VACANCIES

5 SC

4 ST

4 Women

5 EWS
